MANAGEMENT DISCUSSION OF FUND PERFORMANCE – (Unaudited)

Dear Shareholders:

The investment objective of the Silk Invest New Horizons Frontier Fund (the “Fund”) is capital appreciation. The objective is measured against the MSCI Frontier Markets Index (Net).

Performance Review

The Fund delivered a net return of 9.75% for the six-month period ending December 31, 2023, surpassing its main benchmark, the MSCI Frontier Markets Index (Net), which posted a 6.03% return during the same period. Additionally, the Fund outperformed the MSCI Emerging Markets Index which recorded a return of 3.46% over the same period. The Fund’s outperformance against the main benchmark can be attributed to several factors, including positive stock selection effects in Morocco and Vietnam. Positive country allocation decisions to Nigeria, Egypt, and Pakistan also contributed, offsetting the impact of poor selection effects in Egypt, where the market exhibited robust performance but fell short of benchmark levels. Currency effects were adverse due to the Fund’s positions in Nigeria and Kenya, where currencies depreciated throughout the latter half of the year.

The second half of 2023 witnessed a recovery in frontier markets, concluding the year positively for the funds’ regional stock markets. A dovish message on interest rates from the Federal Reserve chairman towards the end of the year played a pivotal role. Despite favorable stock selection and overall market performance, currency contribution was negative due to a stronger dollar and persistent currency depreciation in Nigeria and Kenya.

Morocco made a positive contribution to the Fund, maintaining its economic momentum and reducing inflation to 3.6% in November from a peak of 10.1% in February. Contrary to concerns post the September earthquake, recent tourism receipts data indicates that Morocco weathered the impact relatively well, showing a modest downturn in line with seasonal norms.

The Nigerian equity market gained momentum towards the end of May, following reforms launched by the newly elected President. These reforms included changes to the foreign exchange market and the removal of a costly fuel subsidy. Nigerian Pension funds responded positively, resulting in a 35% increase in the stock market. Nigerian banking stocks reached a 20-year high in June, driven by these reforms. However, foreign investors remained cautious due to concerns about the currency and challenges in repatriating funds. Prudent investment decisions may require waiting for the return of foreign exchange stability before considering further investments in Nigeria’s market.

Fund Outlook and Strategy

The year 2024 should be interesting in a political sense with more than 24 general elections planned across various emerging and frontier economies. Commencing with Bangladesh in January, followed by Pakistan in February, South Africa in the summer, and concluding with Ghana in December, these events will no doubt impact our invested markets. As investors, we shall keep a close watch on proceedings with a focus on fiscal discipline and any populist shifts that could stir our markets.

Our investment strategy for 2024 involves a balanced approach, capitalizing on growth potential in Asian and Eastern European markets while managing risks and seizing opportunities in African and Middle Eastern economies. Diversification across regions and sectors, with a focus on evaluating economic and political stability, is crucial. Concentrating investments in countries with robust growth narratives, stable macroeconomic policies, and high-potential sectors, such as technology and renewable energy, is imperative.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE – (Unaudited) (continued)

Despite positive economic outlooks and satisfactory returns in most equity markets, emerging markets, particularly small ones, are trading at a compelling P/E ratio of 8.7x for 2024, with an average earnings growth of 18%. This combination offers an attractive risk-return profile for the asset class.

Frontier markets continue to trade at significant valuation discounts compared to the rest of the world. The combination of this valuation discount and positive long-term growth drivers should attract higher allocations from international investors.

In summary, we believe the outlook for small emerging and frontier markets in 2024 is promising. A strategic allocation to these markets is prudent, given the current overextended valuations and optimistic earnings expectations prevalent in the US market. The unique characteristics of frontier markets, including their low correlation to other markets and asset classes, present an opportunity for portfolio diversification and potential high returns.

The Fund

For the half year ended December 31, 2023, the three investments with the largest contribution to the Fund's absolute return were Nigerian financial services company **United Bank for Africa** which increased 109% in local currency, Moroccan based Real Estate company **Addoha** (+46%) and UAE based real estate company **Emaar** with a positive return of 24% over the reporting period.

Conversely, the three investments that negatively impacted the Fund the most were Nigeria's **Nestle Africa** with a negative return of 12%, Nigeria's Leading Telecom provider **MTN** (-3%) and Kenyan based bank **KCB Group** (-25%) over the period.

The Fund continues to focus its investments in Frontier markets and a number of Emerging markets which are not well covered by other mutual funds. This allows the Fund to invest in an unresearched universe of stocks that are more exposed to local economic fundamentals and are less exposed to global trends and shifts in international investment sentiment.

We believe that the Fund is well positioned and offers investors an attractive diversification in the current investment cycle. The Fund has a unique proposition within the Frontier markets universe and offers exposure to companies with attractive valuations in their respective sectors and countries. The Price to Earnings (P/E) of the Fund stands at 5.7x as of December 31, 2023, its Dividend Yield at 3.4% and its Price to Book Ratio at 0.6x.

Silk Invest Ltd.

INVESTMENT RESULTS

Average Annual Total Returns^(a)					
(for the periods ended December 31, 2023)					
	Six Months	One Year	Three Year	Five Year	Since Inception (5/25/16)
Silk Invest New Horizons Frontier Fund - Institutional Class	9.75%	1.23%	(0.26)%	1.85%	0.22%
MSCI Frontier Markets Index ^(b)	6.03%	11.63%	(0.52)%	3.33%	3.39%

Total annual operating expenses, as disclosed in the Silk Invest New Horizons Frontier Fund (the “Fund”) prospectus dated October 28, 2023, were 3.07% of average daily net assets, including acquired fund fees and expenses of 0.03% and line of credit and interest expense of 0.02% (2.05% after fee waivers and/or expense reimbursements). Silk Invest Limited (the “Adviser”) has contractually agreed to waive its management fee and/or reimburse expenses so that total annual Fund operating expenses, excluding portfolio transaction and other investment-related costs (including brokerage fees and commissions); taxes; borrowing costs (such as interest and dividend expenses on securities sold short); acquired fund fees and expenses; fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses); expenses incurred in connection with any merger or reorganization; extraordinary expenses (such as litigation expenses, indemnification of Trust officers and Trustees and contractual indemnification of Fund service providers); and other expenses that the Trustees agree have not been incurred in the ordinary course of the Fund’s business, do not exceed 2.00% of the Fund’s average daily net assets for Institutional Class shares through October 31, 2024. This expense cap may not be terminated prior to this date except by the Board of Trustees upon 60 days’ written notice to the Adviser. Each waiver/expense payment by the Adviser is subject to recoupment by the Adviser from the Fund in the three years following the date the particular waiver/expense payment occurred, but only if such recoupment can be achieved without exceeding the annual expense limitation in effect at the time of the waiver/expense payment and any expense limitation in effect at the time of the recoupment. Additional information pertaining to the Fund’s expense ratios as of December 31, 2023 can be found in the financial highlights.

The performance quoted represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance of the Fund may be lower or higher than the performance quoted. The Fund’s investment objectives, risks, charges and expenses must be considered carefully before investing. Performance data current to the most recent month end may be obtained by calling (800) 797-9745.

- ^(a) Return figures reflect any change in price per share and assume the reinvestment of all distributions. The Fund’s returns reflect any fee reductions during the applicable periods. If such fee reductions had not occurred, the quoted performance would have been lower. Total returns for less than one year are not annualized.
- ^(b) The MSCI Frontier Markets Index (the “Index”) captures large- and mid-cap representation across 29 Frontier Markets countries: Bahrain, Bangladesh, Burkina Faso, Benin, Croatia, Estonia, Guinea-Bissau, Iceland, Ivory Coast, Jordan, Kenya, Latvia, Lithuania, Kazakhstan, Mauritius, Mali, Morocco, Niger, Nigeria, Oman, Pakistan, Romania, Serbia, Senegal, Slovenia, Sri Lanka, Togo, Tunisia and Vietnam. The index includes 211 constituents, covering about 85% of the free float-adjusted market capitalization in each country. The index includes the re-investment of dividends and is not reduced for any assumed trading costs or management fees or other assumed occurred expenses. Individuals cannot invest directly in an index; however, an individual may invest in exchange-traded funds or other investment vehicles that attempt to track the performance of a benchmark index.

You should consider the Fund’s investment objective, risks, charges and expenses carefully before you invest. The Fund’s prospectus contains important information about the Fund’s investment objective, potential risks, management fees, charges and expenses, and other information and should be read carefully before investing. You may obtain a current copy of the Fund’s prospectus or performance data current to the most recent month by calling (800) 797-9745.

The Fund is distributed by Ultimus Fund Distributors, LLC, member FINRA/SIPC.

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 (Unaudited)

NOTE 1. ORGANIZATION

The Silk Invest New Horizons Frontier Fund (the “Fund”) is registered under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Unified Series Trust (the “Trust”) on December 15, 2017. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated October 14, 2002, as amended (the “Trust Agreement”). The Trust Agreement permits the Board of Trustees of the Trust (the “Board”) to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a series of funds currently authorized by the Board. The investment adviser to the Fund is Silk Invest Limited (the “Adviser”). The investment objective of the Fund is capital appreciation. Prior to December 21, 2018, the Fund offered two classes of shares: the Institutional Class and the Service Class. The Institutional Class commenced operations on May 25, 2016. The Service Class commenced operations on May 27, 2016. Effective on the close of business on December 20, 2018, Service Class shares were converted into Institutional Class shares. Each share of the Fund has the same voting and other rights and preferences as any other share of the Fund.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

Regulatory update – Tailored Shareholder Reports for Mutual Funds and Exchange-Traded Funds (“ETFs”) – Effective January 24, 2023, the Securities and Exchange Commission adopted rule and form amendments to require mutual funds and ETFs to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information. Other information, including financial statements, will no longer appear in a streamlined shareholder report but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these amendments on the shareholder reports for the Fund.

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes – The Fund makes no provision for federal income or excise tax. The Fund has qualified and intends to qualify each year as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net realized capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 *(Unaudited)*

As of and during the six months ended December 31, 2023, the Fund did not have any liabilities for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations when incurred. During the period, the Fund did not incur any interest or penalties. Management of the Fund has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the previous three tax year ends and the interim tax period since then, as applicable) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements and does not expect this to change over the next twelve months.

In addition to the requirements of the Code, the Fund may also be subject to capital gains tax in certain foreign jurisdictions on gains realized upon sale of securities, payable upon repatriation of sales proceeds. The Fund accrues a deferred liability for unrealized gains in excess of available loss carryforwards on certain foreign securities based on existing tax rates and holding periods of the securities. As of December 31, 2023, the Fund did not have any recorded deferred liability for potential future capital gain taxes.

Expenses – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds of the Trust based on each fund’s relative net assets or another appropriate basis (as determined by the Board).

Redemption Fee – The Fund charges a 2.00% redemption fee for shares redeemed within 180 calendar days of purchase. These fees are deducted from the redemption proceeds otherwise payable to the shareholder. The Fund will retain the fee charged as an increase in paid-in capital and such fees become part of the Fund’s daily net asset value (“NAV”) calculation.

Security Transactions and Related Income – The Fund follows industry practice and records security transactions on the trade date for financial reporting purposes. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income, less foreign taxes withheld, is recorded on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information becomes available to the Fund. Withholding taxes on foreign dividends and foreign capital gain taxes have been provided for in accordance with the Fund’s understanding of the applicable country’s tax codes and regulations.

Income recognized, if any, for foreign tax reclaims is reflected as dividend income in the Statements of Operations and related receivables, if any, are reflected as tax reclaims receivable in the Statements of Assets and Liabilities

Foreign Currency Translation and Risks – The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the current rate of exchange each business day to determine the value of investments and other assets and liabilities. Purchases and sales of foreign securities, and income and expenses, are translated at the prevailing rate of exchange on the respective date of these transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from fluctuation arising from changes in market prices of securities held. These fluctuations are included with the net realized and unrealized gain or loss from investments. Net realized gain (loss) on foreign currency translations on the Statement of Operations represents currency gains

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 *(Unaudited)*

(losses) realized between the trade and settlement dates on securities transactions, and the difference between the amount of investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. The change in unrealized currency gains (losses) on foreign currency translations for the period is reflected in the Statement of Operations.

As of December 31, 2023, assets and liabilities denominated in Nigerian Naira are translated using the Nigerian Autonomous Foreign Exchange Rate Fixing ("NAFEX") rate. During the six months ended December 31, 2023, there has been a significant amount of volatility with regard to the NAFEX rate, given changes that were announced and have taken place with regard to Nigerian government and monetary policy. Monetary policies enacted by government agencies in Nigeria, limiting its local currency's repatriation to safeguard U.S. dollar reserves and exchange rates, significantly impacts the ability of the Fund to convert local denominated assets and liabilities amounts to U.S. dollars using quoted immediate currency settlement rates.

The Fund bears the risk of changes in the foreign currency exchange rates and their impact on the value of assets and liabilities denominated in foreign currency. The Fund also bears the risk of a counterparty failing to fulfill its obligation under a foreign currency contract. Investments in securities of foreign companies involve additional risks including:

Foreign Securities Risks – Investments in securities of foreign companies involve additional risks, including less liquidity, currency-rate fluctuations, political and economic instability, differences in financial reporting standards and securities market regulation, and imposition of foreign taxes. Risks of foreign common stocks also include higher brokerage costs, expropriation or nationalization, transfer restrictions and restrictions on foreign investments and exchange of securities. Geopolitical events, including those in the Middle East, may also cause market disruptions.

Frontier Markets Risks – Investments in frontier markets can involve risks in addition to and greater than those generally associated with investing in more developed foreign markets. Frontier market countries generally have smaller economies or less developed capital markets than traditional emerging market countries and, as a result, the risks of investing in emerging market countries are magnified in frontier market countries. Frontier market economies can be subject to greater social, economic, regulatory, and political uncertainties. Adverse government policies, taxation, restrictions on foreign investment and on currency convertibility and repatriation, currency fluctuations and other developments in laws and regulations of frontier countries in which Fund investments may be made, including expropriation, nationalism and other confiscation, could result in loss. In addition to withholding taxes on investment income, some countries with frontier markets may impose different capital gains taxes on foreign investors. All of these factors can make frontier market securities more volatile and potentially less liquid than securities issued in more developed markets, including more developed emerging markets.

Currency Risks – The value of the Fund's foreign holdings as measured in U.S. dollars may be affected unfavorably by changes in foreign currency exchange rates. The Fund may also incur costs in connection with conversions between various currencies. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including but not limited to, changes in interest rates, intervention by central banks or supranational entities such as the International Monetary Fund ("IMF"), managed adjustments in

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 (Unaudited)

relative currency values and other protectionist measures imposed or negotiated by countries with which frontier markets companies trade or by the imposition of currency controls or other political developments in the United States or abroad. For example, Nigeria has experienced economic challenges and liquidity issues with respect to its currency. As a result of these and other currency risks, the Fund's investments in foreign currency denominated securities may reduce the returns of the Fund.

Concentration Risk – The Fund may have significant investments in the securities of issuers within a particular sector or country. Any development affecting that sector or country will have a greater impact on the value of the net assets of the Fund than would be the case if the Fund did not have significant investments in that sector or country. In addition, this may increase the risk of loss in the Fund and increase the volatility of the Fund's NAV per share. For instance, economic or market factors, regulatory changes or other developments may negatively impact all companies in a particular sector or country, and therefore the value of the Fund's portfolio will be adversely affected. As of December 31, 2023, the Fund had 41.74% of the value of its net assets invested in the Financials sector and 27.58% of the value of its net assets invested in stocks within Nigeria.

Restricted and Illiquid Securities – A restricted security is a security that has been purchased through a private offering and cannot be resold to the general public without prior registration under the Securities Act of 1933, as amended (the "Act"), pursuant to the resale limitations provided by Rule 144A or Regulation S under the Act, or an exemption from the registration requirements of the Act. Whether a restricted security is illiquid is determined pursuant to guidelines established by the Board. As of December 31, 2023, the Fund did not hold any restricted securities.

The Fund may invest up to 15% of its net assets in illiquid securities. Illiquid securities are those investments that may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the conversion to cash significantly changing the market value of the investment. Illiquid securities may be valued under methods approved by the Board as reflecting fair value. As of December 31, 2023, the Fund had investments in illiquid securities with a total fair value of \$958,150 or 6.67% of total net assets.

Dividends and Distributions – The Fund intends to distribute its net investment income and net realized long-term and short-term capital gains, if any, at least annually. Dividends and distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified among the components of net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or NAV per share of the Fund.

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 (Unaudited)

NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS

The Fund values its portfolio securities at fair value as of the close of regular trading on the New York Stock Exchange (“NYSE”) (normally 4:00 p.m. Eastern Time) on each business day the NYSE is open for business. Fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. GAAP establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (the risk inherent in a particular valuation technique used to measure fair value including a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained and available from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date
- Level 2 – other significant observable inputs (including, but not limited to, quoted prices for an identical security in an inactive market, quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining fair value of investments based on the best information available)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy which is reported is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Equity securities that are traded on any stock exchange are generally valued at the last quoted sale price on the security’s primary exchange. Lacking a last sale price, an exchange traded security is generally valued at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued at the NASDAQ Official Closing Price. When using the market quotations and when the market is considered active, the security is classified as a Level 1 security. In the event that market quotations are not readily available or are considered unreliable due to market or other events, securities are valued in good faith by the Adviser as “Valuation Designee” under the oversight of the Board’s Pricing & Liquidity Committee. The Adviser has adopted written policies and procedures for valuing securities and other assets in circumstances where market quotes are not

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 (Unaudited)

readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Valuation Designee pursuant to its policies and procedures. Any fair value provided by the Valuation Designee is subject to the ultimate review of the pricing methodology by the Pricing & Liquidity Committee of the Board on a quarterly basis. Under these policies, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used.

With respect to foreign equity securities that are principally traded on a market outside the United States, the Board has approved the utilization of an independent fair value pricing service to evaluate the effect of market fluctuations on these securities after the close of trading in that foreign market. To the extent that securities are valued using this service, they will be classified as Level 2 securities.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

Investments in mutual funds, including money market mutual funds, are generally priced at the ending NAV as reported by the underlying Fund companies. These securities are categorized as Level 1 securities.

In accordance with the Trust's valuation policies and fair value determinations pursuant to Rule 2a-5 under the 1940 Act, the Valuation Designee, the Investment Adviser, is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single method exists for determining fair value because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of a security being valued by the Valuation Designee would be the amount that the Fund might reasonably expect to receive upon the current sale. Methods that are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market prices of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Fair-value pricing is permitted if, in the Valuation Designee's opinion, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the close of a market but before the Fund's NAV calculation that may affect a security's value, or the Valuation Designee is aware of any other data that calls into question the reliability of market quotations. The Valuation Designee may obtain assistance from others in fulfilling its duties. For example, it may seek assistance from pricing services, fund administrators, sub-advisers, accountants, or counsel; it may also consult the Trust's Fair Value Committee. The Valuation Designee, however, remains responsible for the final fair value determination and may not designate or assign that responsibility to any third party.

Silk Invest New Horizons Frontier Fund
NOTES TO FINANCIAL STATEMENTS *(continued)*
December 31, 2023 *(Unaudited)*

The following is a summary of the inputs used to value the Fund’s investments as of December 31, 2023:

	Valuation Inputs			Total
	Level 1	Level 2	Level 3	
Assets				
Common Stocks ^(a)	\$ 11,082,331	\$ 1,367,521	\$ —	\$ 12,449,852
Exchange-Traded Funds	373,470	—	—	373,470
Money Market Funds	626,378	—	—	626,378
Total	\$ 12,082,179	\$ 1,367,521	\$ —	\$ 13,449,700

^(a) Refer to Schedule of Investments for country classifications.

The Fund did not hold any investments at the end of the reporting period for which significant unobservable inputs (Level 3) were used in determining fair value; therefore, no reconciliation of Level 3 securities is included for this reporting period.

NOTE 4. FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Adviser, under the terms of the management agreement with the Trust with respect to the Fund (the “Agreement”), manages the Fund’s investments. As compensation for its management services, the Fund is obligated to pay the Adviser a management fee computed and accrued daily and paid monthly at an annual rate of 1.00% of the Fund’s average daily net assets. For the six months ended December 31, 2023, the Adviser earned a management fee of \$69,785 from the Fund before the waiver and reimbursement described below. At December 31, 2023, the Adviser owed the Fund \$4,523.

The Adviser has contractually agreed to waive its management fee and/or reimburse expenses so that total annual Fund operating expenses, excluding portfolio transaction and other investment-related costs (including brokerage fees and commissions); taxes; borrowing costs (such as interest and dividend expenses on securities sold short); acquired fund fees and expenses; fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses); expenses incurred in connection with any merger or reorganization; extraordinary expenses (such as litigation expenses, indemnification of Trust officers and Trustees and contractual indemnification of Fund service providers); and other expenses that the Trustees agree have not been incurred in the ordinary course of the Fund’s business, do not exceed 2.00% of the Fund’s average daily net assets for Institutional Class shares through October 31, 2024. This expense cap may not be terminated prior to this date except by the Board upon 60 days written notice to the Adviser. For the six months ended December 31, 2023, the Adviser waived fees and/or reimbursed expenses in the amount of \$81,369 for the Fund.

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 *(Unaudited)*

Each waiver/expense payment by the Adviser is subject to recoupment by the Adviser from the Fund in the three years following the date the particular waiver/expense payment occurred, but only if such recoupment can be achieved without exceeding the annual expense limitation in effect at the time of the waiver/expense payment and any expense limitation in effect at the time of the recoupment. As of December 31, 2023, the Adviser may seek repayment of management fees waived and expense reimbursements as follows:

<u>Recoverable through</u>	
June 2024	\$ 81,952
June 2025	130,912
June 2026	148,574
December 31, 2026	81,369

Ultimus Fund Solutions, LLC (“Ultimus”) provides administration, fund accounting and transfer agent services to the Fund. The Fund pays Ultimus fees in accordance with the agreements for such services.

Northern Lights Compliance Services, LLC (“NLCS”), an affiliate of Ultimus, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives fees from the Fund, which are approved annually by the Board.

Under the terms of a Distribution Agreement with the Trust, Ultimus Fund Distributors, LLC (the “Distributor”) serves as principal underwriter to the Fund. The Distributor is a wholly-owned subsidiary of Ultimus. The Distributor is compensated by the Adviser (not the Fund) for acting as principal underwriter.

Certain officers of the Trust are also employees of Ultimus and such persons are not paid by the Fund for serving in such capacities. One Trustee is a former employee of Ultimus who is not currently paid by the Fund for serving in such capacity.

The Board supervises the business activities of the Trust. Each Trustee serves as a trustee until termination of the Trust unless the Trustee dies, resigns, retires, or is removed. The Chair of the Board and more than 75% of the Trustees are “Independent Trustees,” which means that they are not “interested persons” as defined in the 1940 Act. The Independent Trustees review and establish compensation at least annually. Each Independent Trustee of the Trust receives annual compensation, which is an established amount paid quarterly per fund in the Trust at the time of the regular quarterly Board meetings. The Chair of the Board receives the highest compensation, commensurate with his additional duties and each Chair of a committee receives additional compensation as well. Independent Trustees also receive additional fees for attending any special meetings. In addition, the Trust reimburses Independent Trustees for out-of-pocket expenses incurred in conjunction with attendance at meetings.

NOTE 5. LOAN AGREEMENT

The Trust, on behalf of the Fund, has in place a Loan Agreement (the “Agreement”) with the Fund’s custodian, U.S. Bank, N.A. (the “Bank”) expiring September 17, 2024. Borrowings under this Agreement bear interest at the Prime Rate, which was 8.25% as of December 31, 2023. Maximum borrowings for the Fund is the lesser of

Silk Invest New Horizons Frontier Fund

NOTES TO FINANCIAL STATEMENTS *(continued)*

December 31, 2023 *(Unaudited)*

\$1,000,000, or 5% of the gross market value of the Fund, or 33 1/3% of the gross market value (as determined solely by the Bank using consistently-applied valuation methods disclosed to the Trust) of the unencumbered assets of the Fund (i) which are recorded on the Trust's books and records as belonging solely to the Fund and (ii) which are not subject to segregation or any special purpose usage, and (iii) as to which no third party has any pledge, security, interest, lien or any other rights, and (iv) which are held by the Bank as sole custodian. During the six months ended December 31, 2023, the Fund had no borrowing activity.

NOTE 6. INVESTMENT TRANSACTIONS

For the six months ended December 31, 2023, purchases and sales of investment securities, other than short-term investments, were \$644,235 and \$1,289,279, respectively.

There were no purchases or sales of long-term U.S. government obligations during the six months ended December 31, 2023.

NOTE 7. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a) (9) of the 1940 Act. At December 31, 2023, Mercy Investment Services, Inc. owned 99.28% of the Fund. As a result, Mercy Investment Services, Inc. may be deemed to control the Fund.

NOTE 8. FEDERAL TAX INFORMATION

At December 31, 2023, the net unrealized appreciation (depreciation) and tax cost of investments for tax purposes was as follows:

Gross unrealized appreciation	\$ 2,084,703
Gross unrealized depreciation	<u>(3,245,880)</u>
Net unrealized appreciation/ (depreciation) on investments	\$ <u>(1,161,177)</u>
Tax cost of investments	\$ <u>14,610,877</u>

The difference between book-basis and tax-basis of unrealized appreciation (depreciation) is primarily attributable to differences due to wash sales, transfers in-kind and passive foreign investment company un-reversed inclusions.

The tax character of distributions paid for the fiscal year ended June 30, 2023, the Fund's most recent fiscal year end, was as follows:

Distributions paid from:	
Ordinary income ^(a)	\$ 365,357
Total distributions paid	\$ <u>365,357</u>

^(a) Short-term capital gain distributions are treated as ordinary income for tax purposes.

Silk Invest New Horizons Frontier Fund
NOTES TO FINANCIAL STATEMENTS *(continued)*
December 31, 2023 (Unaudited)

At June 30, 2023, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed Ordinary Income	\$ 267,759
Accumulated Capital and Other	
Losses	(8,298,032)
Unrealized Depreciation on	
Investments	<u>(2,507,650)</u>
Total Accumulated Deficits	<u>\$ (10,537,923)</u>

At June 30, 2023, the Fund had short-term and long-term capital loss carryforwards available to offset future gains and not subject to expiration in the amount of \$1,412,589 and \$6,885,443, respectively.

NOTE 9. COMMITMENTS AND CONTINGENCIES

The Trust indemnifies its officers and Trustees for certain liabilities that may arise from their performance of their duties to the Trust or the Fund. Additionally, in the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

NOTE 10. SUBSEQUENT EVENTS

Management of the Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date at which these financial statements were issued. Based upon this evaluation, management has determined there were no items requiring adjustment of the financial statements or additional disclosure.

LIQUIDITY RISK MANAGEMENT PROGRAM – (Unaudited)

The Trust has adopted and implemented a written liquidity risk management program (the “Program”) as required by Rule 22e-4 (the “Liquidity Rule”) under the 1940 Act. The Program is reasonably designed to assess and manage the Fund’s liquidity risk of each individual series of the Trust (each a “Fund” and collectively, the “Funds”), taking into consideration, among other factors, the Fund’s investment strategy and the liquidity of its portfolio investments during normal and reasonably foreseeable stressed conditions; its short and long- term cash flow projections; and its cash holdings and access to other funding sources. The Board approved the appointment of the Liquidity Administrator Committee, comprising certain Trust officers and employees of the Adviser. The Liquidity Administrator Committee maintains Program oversight and reports to the Board on at least an annual basis regarding the Program’s operational effectiveness through a written report (the “Report”). The most recent Report, which was presented to the Board for consideration at its meeting held on August 14-15, 2023, outlined the operation of the Program and the adequacy and effectiveness of the Program’s implementation. During the review period, the Fund did not experience unusual stress or disruption to their operations related to purchase and redemption activity. Also, during the review period the Fund held adequate levels of cash and highly liquid investments to meet shareholder redemption activities in accordance with such Fund’s prospectus and within the requirements of the 1940 Act. The Report concluded that the Program is reasonably designed to prevent violation of the Liquidity Rule and has been effectively implemented.

SUMMARY OF FUND EXPENSES – (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including redemption fees and (2) ongoing costs, including management fees, distribution (12b-1) fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 through December 31, 2023.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table below is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if transaction costs were included, your costs would have been higher.

		Beginning Account Value July 1, 2023	Ending Account Value December 31, 2023	Expenses Paid During Period^(a)	Annualized Expense Ratio
Silk Invest New Horizons Frontier Fund					
Institutional Class	Actual	\$1,000.00	\$1,097.50	\$ 10.55	2.00%
	Hypothetical ^(b)	\$1,000.00	\$1,015.08	\$ 10.13	2.00%

^(a) Expenses are equal to the Fund’s annualized expense ratios, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

^(b) Hypothetical assumes 5% annual return before expenses.

PRIVACY NOTICE – (Unaudited)

Rev: January 2020

FACTS	WHAT DOES SILK INVEST NEW HORIZONS FRONTIER FUND (THE “Fund”) DO WITH YOUR PERSONAL INFORMATION?	
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.	
What?	<p>The types of personal information we collect and share depend on the product or service you have with us. This information can include:</p> <ul style="list-style-type: none"> • Social Security number • account balances and account transactions • transaction or loss history and purchase history • checking account information and wire transfer instructions <p>When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.</p>	
How?	All financial companies need to share customers’ personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers’ personal information; the reasons the Fund chooses to share; and whether you can limit this sharing.	
Reasons we can share your personal information		Does the Fund share?
For our everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus		Yes
For our marketing purposes – to offer our products and services to you		No
For joint marketing with other financial companies		No
For our affiliates’ everyday business purposes – information about your transactions and experiences		No
For our affiliates’ everyday business purposes – information about your creditworthiness		No
For nonaffiliates to market to you		No
